NEWS RELEASE

Organto Receives Organic Certifications for Guatemalan Farms

Vancouver, BC, Canada, March 09, 2016 – Organto Foods Inc. (OGO: TSX-V) is pleased to announce that it has received organic certifications under the USDA National Organic Program (USDA NOP), European Organic Certification (EC 834/2007 and 889/2008), Canada Organic Certification and the Japan Agricultural Standard organic programs. The certifications cover approximately 38 hectares of Organto’s open-field growing farms in Guatemala as well as 3.2 hectares of greenhouses.

“We’re thrilled to have achieved organic certifications on the majority of our current projects in Guatemala and look forward to adding additional greenhouses and farmland with the coveted organic certification. We’ll be shipping organic produce to our clients throughout the U.S. and Europe imminently; our products are in various stages of cultivation at this time and we expect to be harvesting any day now,” commented Peter Gianulis, President and CEO of Organto Foods Inc.

The certifications apply to approximately 14 hectares of Organto’s Monjas Farm and to the entire 24 hectare growing area of the Pastoria Farm. In addition, the 3.2-hectare Monjas Greenhouse Operations also achieved organic designation. An additional 9 hectares at Monjas have been designated as “transitional land” and approximately 4.7 hectares will be abandoned for a three-year period. Currently, there is no plan to utilise the transitional land for any growing operations.

Quality Certification Services (“QCS”), a Florida based industry leading organic certifier, reviewed Organto’s application and records. QCS has more than 25 years of experience in certification with clients in 39 states and 12 countries.

ON BEHALF OF THE BOARD,

Peter L Gianulis
President & CEO

This release may include certain forward-looking information and statements, as defined by law including without limitation Canadian securities laws and the “safe harbor” provisions of the US Private Securities Litigation Reform Act of 1995 (“forward-looking statements”). In particular, and without limitation this news release contains forward-looking statements respecting the company’s future plans for growth and development of the business, implementation of a comprehensive social responsibility platform and achieving management’s goals and objectives; the future prospects for the company; management’s beliefs, assumptions and expectations; and general business and economic conditions. Forward-looking statements are based on a number of assumptions that may prove to be incorrect, including without limitation assumptions about the following: levels of agricultural production; achieving a sufficient level of profitability to allow management to fund social responsibility initiatives; establishing market share; cost increases; dependence on suppliers, partners and contractual counter-parties; changes in the business or prospects of the company; unforeseen circumstances; risks associated with the organic and conventional produce business, including inclement weather, unfavourable growing conditions, low crop yields and similar risks; general business and economic conditions; and ongoing relations with employees, consultants, partners and joint venturers. The foregoing list is not exhaustive and we undertake no obligation to update any of the foregoing except as required by law.
