NEWS RELEASE

Organto Adds Strategic Supply Partner and Expands Product Offering

Vancouver, BC, Canada, June 5, 2018 – Organto Foods Inc. (TSX-V: OGO, OTC: OGOFF) (“Organto” or “the Company”), an integrated provider of value-added organic vegetable and fruit products today announced that it has entered into a strategic supply relationship with a supplier of organic fruits and vegetables based in Thailand, expanding Organto’s supply base and product offering.

Under the terms of the five-year agreement, Organto will contract organic passion fruit and organic baby corn for exclusive supply to European markets from this supplier. Initial product supply of organic passion fruit has commenced and will expand throughout the year with this supplier, plus others, and supply of organic baby corn from this supplier is expected to commence late in the third quarter of 2018.

“We are excited to work with our new supply partner as we expand our sourcing and supply platform to address continued growing demand for fresh organic vegetable and fruit products,” commented Steve Bromley, Chair and Interim CEO of Organto Foods Inc. “We expect this to be one of a number of new strategic supply relationships which will be formalized in the near future.”

The addition of this new supply source aligns with Organto’s strategy to expand beyond its value-added organic vegetable product offerings and supply capabilities. The addition of expanded supply relationships focused on organic soft, tropical and exotic fresh fruits such as organic blueberries, organic blackberries, organic passion fruit and organic avocados, plus other organic vegetables such as organic baby corn, are expected to expand revenue streams, deepen supply relationships with strategic growers in key supply markets, expand market presence and develop incremental opportunities for Organto “I am Organic” branded products and private label offerings.

ON BEHALF OF THE BOARD,

Steve Bromley
Chair and Interim Chief Executive Officer

About Organto

Organto is an integrated provider of year-round value-added branded organic vegetables and seasonal organic and non-GMO fruit and vegetables produce serving a growing socially responsible and health conscious consumer around the globe. Organto employs a business model that is integrated from the “table to the field”. Driven by consumer demand for healthy and organic food products, it operates an integrated business model with sourcing, logistical and processing capabilities, providing complete traceability from the table back to the field. Operations are currently located in Guatemala, The Netherlands and the USA, as well as third-party supply from from a variety of regions, with plans to continue to expand supply capabilities via strategic third-party growers and processors in Africa, Mexico and other growing regions. Organto’s business model is rooted in its commitment to sustainable business practices focused on environmental responsibility and a commitment to the communities where it operates, its people and its shareholders.

Forward Looking Statements

This news release may include certain forward-looking information and statements, as defined by law including without limitation Canadian securities laws and the “safe harbor” provisions of the US Private Securities Litigation Reform Act of 1995 (“forward-looking statements”). In particular, and without limitation, this news release contains forward-looking statements respecting Organto’s business model and markets; Organto’s integrated year-round supply capabilities and plans to continue to develop and expand these capabilities; plans to expand product offerings; management’s beliefs, assumptions and expectations; and general business and economic conditions. Forward-looking statements are based on a number of assumptions that may prove to be incorrect, including without limitation assumptions about the following: the ability and time frame within which Organto’s business model will be implemented and product supply will be increased; cost increases; dependence on suppliers, partners and contractual counter-parties; changes in the business or prospects of Organto; unforeseen circumstances; risks associated with the organic produce business generally, including inclement weather, unfavourable growing conditions, low crop yields, variations in crop quality, spoilage, import and export laws and similar risks; transportation costs and risks; general business and economic conditions; and ongoing relations with distributors, customers, employees, suppliers, consultants, contractors, partners and joint venturers. The foregoing list is not exhaustive and Organto undertakes no obligation to update any of the foregoing except as required by law.
