NEWS RELEASE

Organto Commences Sales to COOP, One of the Largest Food Retailers in Europe

Vancouver, BC, Canada, February 24, 2016 – Organto Foods Inc. (TSX-V: OGO, OTC: OGOFF) (“Organto” or “the Company”) a leading vertically integrated provider of value added branded organic produce, today announced that it has commenced commercial shipments of organic green beans to COOP Denmark, the largest retailer of consumer goods in Denmark.

The first organic shipments to COOP are an important step in validating Organto’s organic growing operations in Guatemala and its strategic model, which when fully implemented, will supply year-round fresh organic value added vegetables from Guatemala, Uganda, Argentina and other countries.

Organto employs a business model that is integrated from the “table to the field”, with extensive logistics, processing and growing capabilities, providing complete traceability from the table back to the field. The model is unique given its forecast for year-round supply capabilities, strategically positioning Organto to serve the growing healthy foods markets. According to a report from ABN AMRO dated June 23, 2016, “by 2020, it is expected that global organic food consumption will reach US\$160 Billion, to reach the expected growth, there must be sufficient supply”.

Organto has received approval for sales of various products from a number of prominent European based retailers, and will commence distribution to these accounts in hand with increased supply as operations expand.
