

Organto Foods Inc.

Company Presentation

December 2023

Disclaimer

This presentation contains certain forward-looking statements which may not be based on historical fact, including without limitation, statements regarding Organto Foods Inc. ("Organto")' expectations in respect of its ability to successfully execute its business plan; its in-depth knowledge and experience in the organic foods business; plans for future growth and the direction of the business; financial projections including expected revenues, gross margin, EBITDA and cash-flow (the last two being non-GAAP financial measures); plans to increase product volumes and supplies from strategic third party growers and contractors; expected growth of the organic foods industry generally; its ability to raise additional capital and fund its ongoing operations; management's expectations, beliefs and assumptions; events or developments that Organto expects to take place in the future; and general economic conditions. All statements, other than statements of historical facts, are forward-looking information and statements. The words "believe", "expect", "anticipate", "contemplate", "target", "intends", "continue", "budget", "estimate", "may", "will", and similar expressions identify forward-looking information and statements.

Such forward-looking information and statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Organto as of the date of such information and statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking information and statements. Such factors include, but are not limited to, the inability of Organto to generate sufficient revenues and margins or raise sufficient funds to carry out its business plan; the impact of the global COVID-19 pandemic and Russia/Ukraine conflict on customer demand and supply chains, supply availability and ongoing operations; changes in government legislation, taxation, controls, regulations and political or economic developments in various countries; risks associated with agricultural activities generally, including inclement weather, access to supply of organic products, poor crop yields, and spoilage; ability to maintain organic certifications; compliance with import and export laws of various countries; significant fluctuations in food prices and transportation costs; the risk of obtaining necessary licenses and permits; the ability to retain key employees and contractors; dependence on third parties for services and supplies; non-performance by contractual counterparties; the ability to acquire complimentary and accretive businesses on acceptable terms; and general economic conditions. The foregoing list is not exhaustive and Organto undertakes no obligation to update any of the foregoing except as required by law. Many of these uncertainties and contingencies could affect Organto's actual performance and cause its actual performance to differ materially from what has been expressed or implied in any forward-looking information and statements made by, or on behalf of, Organto. Readers are cautioned that forward-looking information and statements are not guarantees of future performance. There can be no assurance that such information and statements will prove to be accurate and actual results and future events could differ materially from those acknowledged in such information and statements.

Organto disclaims any intention or obligation to update or revise any forward-looking information and statements whether as a result of new information, future events or otherwise, except to the extent required by applicable laws.

Investment Highlights
